Course Hours : 0.00- Hours

Department : University Requirments

Description :

Practical training is a part of the Mechatronics Engineering Program. The overall duration of the training is 240 hours, divided over 3 modules (80 hours each), and should be carried out during two or three summer semesters at one or more engineering facilities (inside or outside Egypt). The student is eligible to register for the first training module after completing the courses of Level Two (or a minimum of 50 CH). The student may practice at most one on-campus training module (80 hours) offered by the department. After completing each module, the student shall submit a report and conduct a presentation to be evaluated by the scientific department. The three training modules are equivalent to 1 CH.
