

Faculty of Pharmacy

Medical Microbiology

Information :

Course Code : PM 604

Level : Undergraduate

Course Hours : 3.00- Hours

Department : Pharm D

Instructor Information :

Title	Name	Office hours
Professor	Marwa Mahmoud Raafat Abdel Fadiel Hassan	2
Associate Professor	MARWA ALI MOHAMED TAMMAM	
Lecturer	Amr Ali Abass Ahmed Hemed	1
Lecturer	Ahmed Said Abuzaid Ahmed	1
Assistant Lecturer	Alaa Atef Fawzy Hassan	

Description :

The course aims at studying microorganisms causing infectious disease of major public health significance in human. The etiology of infectious diseases, their clinical manifestations, route of transmission, treatment and techniques for detection and identification of pathogenic microorganisms are covered. The microorganisms studied in this course include Gram negative and Gram-positive bacteria, mycobacteria, fungi, mycoplasmas, rickettsiae and chlamydiae. Methods for laboratory diagnosis and identification of bacterial pathogens are emphasized in the laboratory.
