**b.Intellectual Skills:**

1 -	Interpret and manage normal and abnormal situations of the oral structures.
2 -	Assess the typical problems of multilated oral tissues.
3 -	Formulate appropriate treatment plan for maxillofacial patients.

4 - "Make decisions regarding suitability of different techniques for different situation.

**c. Professional and Practical Skills:**

1 -	"Perform mouth preparation, tooth preparation, construction of over-dentures and periodic recall procedures.
2 -	"Effectively diagnosis and plan the appropriate treatment sequences for a Patient who must lose natural dentition.
3 -	"Assess congenital and acquired maxillofacial defects.
4 -	"Demonstrate understanding of stents, splints and radiotherapy prosthesis

**d. General and Transferable Skills:**

1 -	"Demonstrate appropriate professional attitudes and behavior in dealing with patient
2 -	"Communicate effectively both verbally and in writing with other health care professionals to maximize patient benefits and minimize the risk of errors.

**Course Topic And Contents :**

Topic	No. of hours	Lecture	Tutorial / Practical
Congenital defect	7		
Cleft lip and palate	7		
Speech	7		
Speech appliances	7		
Acquired maxillary defects	7		
Implants in Maxillofacial Prosthodontics	7		
Radiation and radiation stents	7		
Stents	7		
Splints	7		
Extra oral Prosthodontics	7		
Revision	7		

**Teaching And Learning Methodologies :**

Lectures
Assignments
Small group sessions
practical

**Course Assessment :**

Methods of assessment	Relative weight %	Week No	Assess What
Final written Examination	25.00		
Mid-term Examination	30.00		
Oral Examination	10.00		
Practical Examination	15.00		
Semester Work	20.00
