

Faculty of Oral & Dental Medicine

Removable Prosthodontics Technology

Information:

Course Code: RPROS312 Level: Undergraduate Course Hours: 3.00- Hours

Department: Faculty of Oral & Dental Medicine

Instructor Information:

Title	Name	Office hours
Lecturer	Ayman Sharif Mahmoud Fateen	
Teaching Assistant	Randa Hassan Mohamed Adil	

Area Of Study:

Learning the removable partial denture components and the principles of removable partial denture design and construction.

Then to be able to carry out the steps of wax pattern fabrication of cobalt chromium metallic framework partial dentures

Description:

Introduction and objectives of removable partial denture, Partial denture classification, Denture base, Occlusal rests, direct retainer, indirect retainer, Mandibular and maxillary major connector, Surveyor, Laboratory procedure spruing, finishing, polishing and repair.

Course outcomes :

a. Knowledge and Understanding: :

- 1 List the objective of partial denture.
 - 2 Identify partially edentulous cases.
 - 3 Identify forces acting on partial dentures.
 - 4 List uses of dental surveyor.
 - 5 Define various components of partial dentures .
 - 6 Identify different partial denture design
 - 7 Describe laboratory procedure for partial dentures.

b.Intellectual Skills::

- 1 Distinguish between partial denture classes.
- 2 recognize appropriate partial denture designs.
- 3 Describe various partial denture components
- 4 Identify indications and contraindications of removable partial denture.

c.Professional and Practical Skills: :

- 1 Demonstrate dental cast surveying
- 2 Perform wax pattern steps required to fabricate partial dentures.

d.General and Transferable Skills::

1 - Display appropriate professional communication skills with colleagues.

Course Topic And Contents :			
Topic	No. of hours	Lecture	Tutorial / Practical
Introduction and objectives of removable partial denture	1	1	
Partial denture classification	1	1	
Denture base	1	1	
Occlusal rests, direct retainer, indirect retainer	2	2	
Mandibular and maxillary major connector	2	2	
Surveyor	1	1	
Laboratory procedure spruing, finishing, polishing and repair.	1	1	

Teaching And Learning Methodologies:

Lectures

Laboratory training

Requirements

Demonstration

E-Learning.

PBL

Course Assessment :				
Methods of assessment	Relative weight %	Week No	Assess What	
final Practical Exam	15.00			
final written eaxm	25.00			
midterms	25.00			
Oral exam	10.00			
Requirements	25.00			

Course Notes:

Department handouts (uploaded on Moodle)

Recommended books:
